

FISH 6001: Seminar Rubric

Instructor: _____

Student: _____

Subject fishery: _____

Item	Description	Score
Delivery and visual aids	<ul style="list-style-type: none">- Speak clearly, make eye contact with audience. Speak with intention- Face the audience, be engaging. Aim for smooth and clear delivery- Slides should be clear, with large font, and uncluttered- Sources should be cited appropriately- All figures should be clear and readable, with large fonts- Avoid purposeless animations, sound effects, etc. Everything on the slides should have a purpose	/10
Organization	<ul style="list-style-type: none">- Presentation should be logically organized- The seminar should emphasize flow and synthesis, not mere lists of information- The seminar must include content on all components outlined in the assignment description	/15
Subject expertise	<ul style="list-style-type: none">- Student should synthesize the fishery. Seminar is not a list, it is a synthesis- Student should demonstrate knowledge in all areas above for the fishery in question- Data gaps should be identified- A breadth of scientific literature (and grey literature, where appropriate) should inform the seminar	/60
Question and Answer	<ul style="list-style-type: none">- Presenter engages with audience.- Questions are answered thoughtfully, not defensively- Differentiate between "no one knows" and "I don't know"- Student demonstrates ability to synthesize existing knowledge and apply it to answering audience questions	/15

Total Score /100

Notes:
